

INTRODUCTION

The security agencies in the Country has assured the public of their safety during the Easter Festive Season.

This follows previous and present intelligence reports of potential attacks in areas that are likely to attract both local and foreign tourists.

A special task has been formed to foresee the deployment of police officers in the Country.

Some of the key mapped areas include Mombasa, Naivasha, Nanyuki and Maasai Mara game reserve.

EASTER SECURITY TIPS

Security awareness during this festive season ought to be everyone's responsibility. The existing statistics show that criminal activities tend to increase during the holiday season. It is, therefore, advisable to be vigilant and careful with your family and belongings. Below are some of the tips for safety and security during this festive period:

■ **Ensure Doors and Windows are locked.**

The vulnerability of homes to burglars tends to be high during this season especially when left unoccupied in the late afternoon and early evenings. It is advisable to ensure that all windows and doors are locked when leaving the house unattended.

■ **Illuminate the Environment**

Burglars work best in the dark, and therefore an automated outside light could act as a good deterrent within the residential area. Leave lights on in two or more rooms to show people that you are home

■ **Keep things out of sight**

Items such as car and house keys need to be kept hidden if living in estates where apartments are not fenced. Do not leave such keys under an outside plant pot or a doormat. Also, make sure house shopping is kept out of sight to ensure the contents of the house are not being advertised unintentionally.

■ **Run a check on your Security Systems**

It could be of great importance to run a check and ensure that installed security systems work properly before leaving for holiday. Advise your security company if you are going away and ensure that you provide all the necessary information in case of an emergency.
