2020

COVID-19 UPDATE
16th April 2020

OVERVIEW

The statistics of the persons confirmed to test positive for coronavirus in the Country have drastically increased to 225 cases since the first confirmed case back in 12th March 2020. Despite this notable increase, the Government continues to set out several directives and guidelines to help curb the spread of Coronavirus in the County with the major one been the cessation order by President Uhuru Kenyatta on 6th April 2020. The President ordered a 21-day containment of all movement by road, rail, or air in and out of the Nairobi Metropolitan area from 7 pm 6th April 2020, and from 7 pm 8th April 2020 in Mombasa, Kilifi, and Kwale Counties.
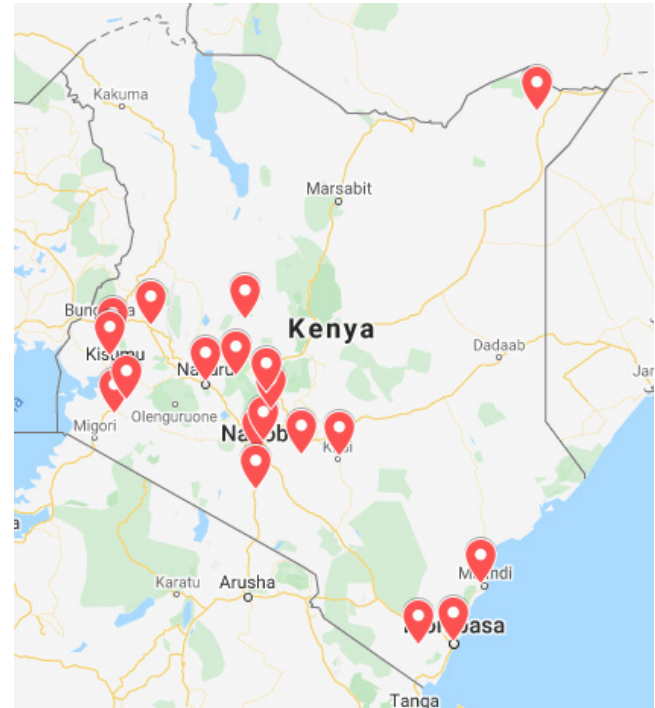

Given the COVID-19 situation in the Country, criminal activities have slightly increased in the past four weeks, with offenders taking advantage of the fights against this pandemic to carry out heinous acts. It is also worth noting that gender-based violence and sexual offenses have spiked with three times more cases been reported as compared to the Pre-COVID era. COVID-19 Statistics in Kenya

- The Cabinet Secretaries of Interior and Health Ministries on Tuesday night made an impromptu visit to Rironi roadblock to inspect operations.

SECURITY THREATS

The continuous directives and guidelines set by the Government in efforts to stop the spread of coronavirus in the Country have seen a rise in home invasions, among other security challenges.

CRIME
Police have advised the public to be on the lookout of individuals masquerading as part of multi-agency teams coordinating activities of the coronavirus pandemic fight in the country. This follows reports of home invasions in Runda, Lavington, and Ruaka by thugs disguising as members of these multi-agency teams. Further to the above, "masked" criminals have found a way to conceal their identity from CCTV camera, thereby facilitating theft incidents in commercial premises like malls.

CIVIL UNREST
Unlike the previous weeks, there was a significant drop in protests in the Country with a majority of the public adhering to the dawn-to-dusk curfew order. However, there exists a possibility of unrest due to the latest cessation order of movement in and out of the Nairobi Metropolitan area, Mombasa, Kilifi, and Kwale Counties.

# BM SECURITY FEVER SCREENING THERMAL SOLUTIONS

In light of the global COVID 19 pandemic BM security is embracing technology in providing our cleitns with solutions to assits in the detection of fever one of the symptoms of COVID 19 virus at their premises.

The BM Security thermal camera solution with hgih temperature accuracy can detect an elevated body temperature.

The camera has an accuracy of +0.5 degrees, and through a combination of artificial intelliagemce (Ai) face detection, multiple
targets screening can be achieved at the same time, reducing false alarms

BENEFITS:

- Multiple target screening (upto 30 at a go).

- Reducing risk exposure through no human interface.

- Elimination of human error that may occur through the use of hand held thermometer devices.

- Use of artificial intelligence to idetify the individual exhibitng hgih temperature.

If you feel unwell, have a cold or a cough or fever, please **call 719** or **text *719#** which is a toll-free number provided by the Government of Kenya. You can also call the following County Hotline numbers:

- Nairobi   0800721316 (toll free) / 0732353535
- Garissa   0111207207 / 0110040836 / 011040708
- Turkana   0758722023
- Mombasa   0758549212
- Nakuru   0724320853 / 0722337018
- Uasin Gishu   0754027027
