

# WEEKLY SECURITY & SAFETY REPORT

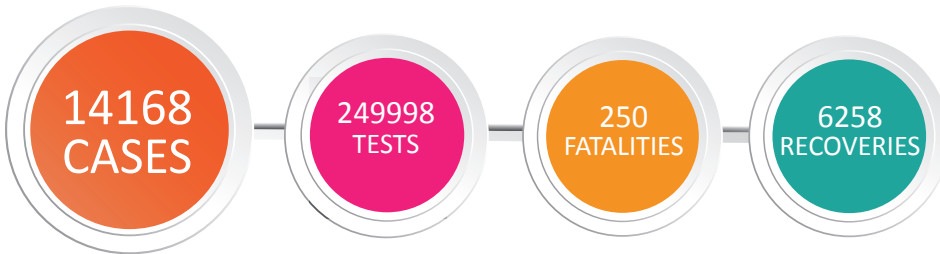

15<sup>th</sup> July - 21<sup>st</sup> July 2020

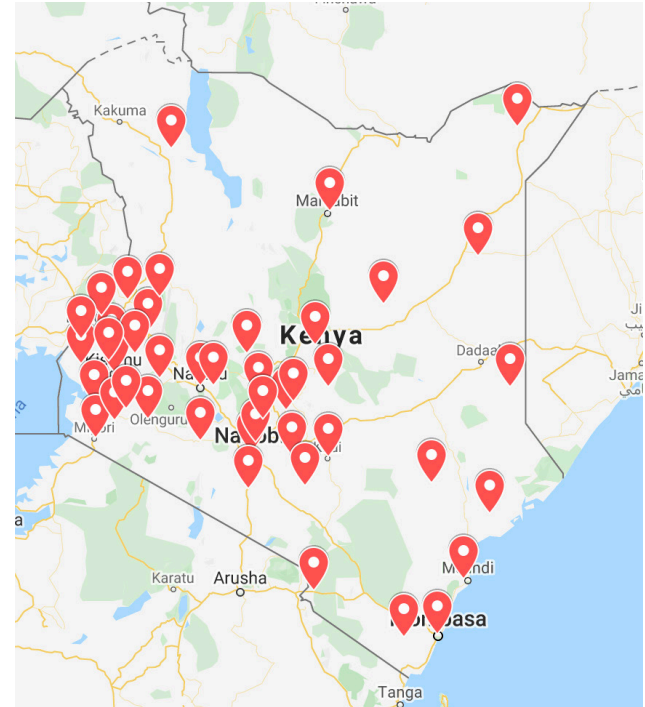

# OVERVIEW

The overall statistics for COVID-19 disease in the Country has been on a worrying trend in July as compared to the past four months. As of 21st July 2020, the number of confirmed COVID-19 infections in Kenya stood at 14168 against 6258 recoveries and 250 deaths. The Government through the Ministry of Health continues to urge the public to adhere to the set guidelines of curbing the spread of the virus, and some of the preventive measures such as working remotely from home and avoiding unnecessary travels to Upcountry regions. Other than the above, there was a slight decline in the general crime trends across the Country following increased night patrols by police and other security agencies.

# SECURITY THREATS

## PERSONAL SAFETY

There have been at least two cases of foiled attacks by suspected Al-Shabaab militants reported along the Kenya-Somalia border with Counties of Mandera and Garissa been the most affected. In all the reported cases, our police were able to repulse the alleged militants and are on high alert for any future invasion.

## CYBER CRIME

Online fraudulent activities are still imminent during this pandemic period. Alleged criminals have taken advantage to target and trick unsuspecting victims into sharing the personal identification details that aid in identity theft among other vices. We advise the public should be on high alert while engaging on social media platforms and avoid sharing their identification details with unauthorized persons or business entities.
